

PETITION
TO THE HOUSE OF COMMONS
IN PARLIAMENT ASSEMBLED

We, the undersigned citizens of Canada, draw the attention of the House of Commons to the following:

THAT,

Suicide kills, on average, 10 Canadians each and every day – almost 4,000 preventable deaths each year, Suicide is not just a mental health issue, but is also a public health issue, Suicide is the second-leading cause of death among Canadian youth, Actions to prevent suicide by communities, governments, organizations and individuals across Canada will be enhanced by coordination and information-sharing, Canada is the only industrialized country without a federal strategy to minimize the incidence of suicide, Parliament recently expressed its desire for the Federal Government to play a stronger role in the prevention of suicide through its vote on the September 29th 2011 Motion, and that Two pieces of legislation, C297 and C300, are currently before Parliament that would each vastly improve the Federal response to the tragedy of suicide.

THEREFORE, your petitioners call upon the House of Commons in Parliament Assembled to:

Meet the public health challenges posed by suicide by adopting legislation that would: recognize suicide as a public health issue, provide guidelines for suicide prevention, promote collaboration and knowledge exchange regarding suicide, promote evidence-based solutions to prevent suicide and its aftermath, and define best practices for the prevention of suicide.
